

Covid-19

Important Instructions when accessing and using this playground.

The Parish Council has carried out a risk assessment in compliance with Government guidelines and the following is our non statutory guidance for parents, guardians and carers.

Managing any potential risk is the responsibility of each and every one of us, therefore all responsible adults are requested to follow these guidelines and to cooperate with each other to ensure maximum safety from the spread of infection whilst accessing this playground. If you become aware of these rules being ignored please report it ASAP to the Parish Council.

The Parish Council is under no obligation to keep the playground open and will close it, temporarily, should it become clear that the level of acceptable risk of the spread of Coronavirus is too great.

- It is recognised that adherence to social distancing between individuals and other households can be particularly difficult in a playground setting. However, keeping a minimum distance of 2 meters or 1 meter with risk mitigation between you and non-family members is to be advised
- The equipment in this playground is for use by children up to the age of 14
- Please ensure children from different family groups do not all crowd onto any single piece of play equipment at the same time
- Particular care should be taken if using the undercover seating area, to maintain social distancing and again clean your hands regularly
- Whilst a sanitising spray is available, we cannot guarantee this will always be full, so adults are asked to bring their own hand sanitiser gel or wipes to clean their children's hands particularly at the beginning and end of play and where possible to clean touch points on equipment before and after use
- Children should be reminded to try and avoid touching their faces, not to put their mouths on equipment or their hands in their mouths, and to cough or sneeze into a tissue or arm when a tissue is not available
- Please place all litter including any used protective wear such as face coverings or gloves properly in the green general litter bin (disposable face coverings and gloves cannot be recycled) or take it home

The Parish Council has taken all reasonable steps to prevent or protect against injury, illness, loss or damage arising. However the use of this playground and its equipment is done at the users own risk where appropriate.
